Survey study invitation

We would like to invite you to participate in a study being conducted by Catherine Good (Baruch College, CUNY) and Brianna Donaldson (American Institute of Mathematics — one of the funders of the Boise Math Teachers' Circle).

The study looks at MTC participants' mindsets and pedagogical practices with regard to mathematics. Participants will be asked to complete a set of online surveys three times: Summer 2015, Fall 2015, and Spring 2016. Each set of surveys is expected to take approximately 30-40 minutes to complete. Participants in the study will receive \$30 as a recognition of their time in completing the surveys.

Teachers can access the study using the following link until July 31:
